

Founded in 2013, we are Switzerland's oldest, regulated, professional company for crypto-financial services. We played a crucial role in the development of the crypto valley and the overall Swiss blockchain ecosystem. Most of all, we continue to strive forward in delivering cutting-edge solutions for our clients.

Product Owner Bitcoin Suisse Pay

About the Role

Bitcoin Suisse is the leading crypto acceptance provider in Switzerland. Together with our partner Worldline we are enabling crypto payments for merchants in Switzerland and soon for many more worldwide.

As Product Owner, you will play a crucial part in further building our Bitcoin Suisse Pay product. Together with a dedicated and skilled team of a business managers, solution architect, developers, designers, and a project manager, you will be given the responsibility to conceptualize and lead the innovation and improvement of the Bitcoin Suisse Pay product.

Main responsibilities

- Define, manage, and drive the Bitcoin Suisse Pay product innovation, development roadmap and backlog
- Design the payment related processes and workflows through systems at Bitcoin Suisse incl. automation of them
- Validate plans and concepts with various stakeholders within the company
- Lead integration of the Bitcoin Suisse Pay systems into our new core banking system, other internal and external systems
- Enhance the functionality of the Bitcoin Suisse Pay systems, optimizing business processes, speed, support of new blockchains/tokens
- Lead quality assurance processes such as regression testing during the roll-out phase
- Manage our internal user groups in cases of application related questions, troubleshooting or bug management as well as internal education on new features
- Ensure completeness of business documentation together with entire team
- Keep up to date with the development and advancements in the crypto acceptance industry

Here is our wish list for what you can do already

- University Bachelor's or Master's degree in engineering, business, computer science or other related education
- More than 3 years of professional experience as a product manager or product owner in the area of blockchain, payments, banking or fintech
- Experience with B2B integrations conducted via APIs
- You are a self-starter, motivated, open-minded personality with strong analytical skills to recognize and solve problems efficiently
- Independent organizer, you can manage your own priorities and keep the overview of team responsibilities of others in a project that you are leading
- "can-do" mentality and getting things done 'attitude'
- Experience with software development and project management methodologies such as scrum and waterfall
- Professional fluency in English is expected. German is a plus

Are you looking for an exciting and challenging job in a dynamic and international environment where you will play a very important role in the success of the company? And is the opportunity to work with leading organizations within the space of crypto finance as well as the opportunity to shape your role and tasks appealing to you?

Note that for this position only direct applications will be considered and with the entitlement to obtain a working permit for Switzerland.
