Founded in 2013, we are Switzerland's oldest, regulated, professional company for crypto-financial services. We played a crucial role in the development of the crypto valley and the overall Swiss blockchain ecosystem. Most of all, we continue to strive forward in delivering cutting-edge solutions for our clients.

IT Systems Engineer

About the role:

As IT Systems-Engineer you are responsible for the cloud-based infrastructure on which the trading, custody, support, and many other services operate to facilitate Bitcoin Suisse clients to trade, invest and securely store crypto assets 24/7. You will be working on an IT environment in spanning 3 locations with around 180 employees and hundreds of concurrent users.

Main responsibilities

- Oversee the design and implementation of the Swiss Azure virtual server infrastructure, databases, and related service infrastructure
- Oversee the operationalization and integration of in-house developed and externally procured software components.
- Oversee he operation of the MS Exchange cluster, MS IIS web servers, Active Directories, Group Policy, and other components required to administrate a complex server and end-user workplace environment.
- Advising business stakeholders in making strategic buy-or-make decision, defining system roadmaps and identifying solutions for meeting long-term business goals.

Here is our wish list for what you can do already

- University Bachelor's degree in information technology or apprenticeship
- Broad technical background in IT, especially on Microsoft technologies
- Profound knowledge of IT security
- Experience of minimum 5 years with the following technologies
  - Azure and virtualization technologies
  - Scripting with PowerShell or similar
  - Microsoft Windows Server
  - Microsoft Azure Active Directory
  - Microsoft group policy management
  - Microsoft SQL Server
  - Microsoft IIS webservers
  - Microsoft Exchange
- Committed problem solver with a positive personality and can-do mentality, who is comfortable with driving and manage changes
- Flexibility to support the team for duty calls and able to work with different international stake holders in three locations
- Fluent in English in writing and speaking is mandatory and German knowledge is desired

Are you looking for an exciting and challenging job in a dynamic and international environment where you will play a very important role in the success of the company? And is the opportunity to work with leading organizations within the space of Crypto Finance as well as the opportunity to shape your role and tasks driven by your interests appealing to you?

Note that for this position only direct applications will be considered and with a valid working permit for Switzerland.
